

Are you ready?

True or false:
I know what to do if there's an accident at the Umatilla Chemical Depot.

If you answered "True," good for you!
If you answered "False," help is on the way.

If you live, work or drive through the emergency zones around the Depot, and you're not sure what to do if there's an accident, you can find out at various community events.

Representatives from CSEPP will be on hand to tell you how to keep from getting caught unprepared.

For fun and learning, bring your family to the events listed at the right—also known as CSEPP Ready Week!
