

Are you ready?

POP QUIZ

Question No. 7*

How confident are you that you know how to "shelter in place," and make a room safe from vapors in the event of a chemical emergency?

- Very confident
- Somewhat confident
- Don't know
- Not very confident
- Not confident at all

If you want to build your confidence, check out the free class being offered June 25—below.

If you live, work, or drive in the emergency zones around the Umatilla Chemical Depot, do you know what to do if the Depot has a chemical emergency? Local officials will instruct you to keep safe by sheltering in place or evacuating. *Are you ready?*

Free class

Surviving Chemical Emergencies

What should you do to protect yourself and your family during a chemical emergency—evacuate or shelter in place? The advantages and disadvantages of each method will be discussed. Learn why sheltering in place works and how to do it effectively from experts with the National Institute for Chemical Studies. There is no charge for the class, but space is limited. Free information handouts will be provided.

When—
7-8 p.m.
Monday
June 25
2001

At two locations for your convenience—

Umatilla Chemical Disposal Outreach Office

190 East Main Street, Hermiston, Oregon

Stokes Landing Senior and Community Center

195 Opal Place, Irrigon, Oregon

Offered by CSEPP in partnership with the National Institute for Chemical Studies (NICS) and Blue Mountain Community College.

*Question No. 7 is from the Umatilla-area CSEPP Ready Quiz. *To be continued...*
