

It's easier than you think.

If you weren't trained to operate a 60-ton Abrams M1 Tank . . .

If you had missed all the hours of simulated combat driving . . .

Would you be ready to go into battle?

Even with inches of hardened steel for protection, you
wouldn't stand a chance.

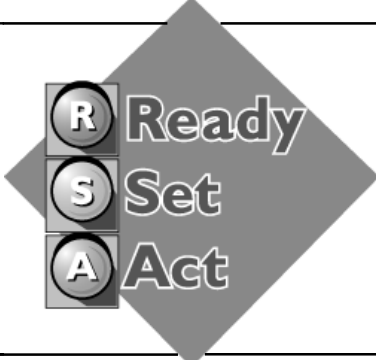

Fortunately, protecting your family in the event of an accident at the
Umatilla Chemical Depot doesn't require this level of training.
We can show you how with a simple sheet of plastic and duct tape.

You can be ready.

Make it easy.
