

Your schools and CSEPP

School Secretary Mary Ellen Tracy, Umatilla High School
 "As school secretary for the past 27 years, I have witnessed the efforts our staff and CSEPP staff to provide safety for our students. Everyone on staff has a task to accomplish during our bi-annual drills and they perform them exceptionally well. Our students and staff are prepared for any emergency!"

Principal Shawn Worstell, Sunset Elementary, Hermiston
 "Our students and staff are really prepared for a chemical emergency. We are encouraged by the over-pressurization system. We have tried it and tested it, and it works! We have a plan and want parents to trust that we are taking care of their children in the event of an emergency."

Principal Norm Stewart, Echo School District
 "I feel confident that the students of the Echo School District are safe. If a chemical emergency were to occur, we would put our evacuation plan into effect, moving our students out of the area before any real threat occurred."

READY TO PROTECT YOUR KIDS

OREGON SCHOOLS THAT WILL SHELTER IN PLACE (OVER PRESSURIZE)
