

Hi Gina.

Hey Maria.  
What's up?

I'm getting  
a book for my daughter  
for school.

Speaking of  
school, have you seen that  
CSEPP TV ad? Will our kids  
really be safe if there's a  
chemical accident?

Absolutely!  
The school's plan keeps  
them safe. And if you have  
a plan for home, your kids will  
know you're safe, too.
