

CSEPP Tone Alert Radios

will provide a warning in emergency zones near the Umatilla Chemical Depot if there is a chemical Accident.

IN WASHINGTON...

If you live in Paterson or Plymouth in Southern Benton County, Washington CSEPP wants you to have a free Tone Alert Radio. Washington radios are tested at noon on the last Tuesday of each month. To function properly, these radios need to be plugged in and receiving a strong signal as shown by the green RF Signal Indicator light. For a free Tone Alert Radio or to report problems, call Washington CSEPP at (800) 841-7953.

IN OREGON...

If you live in Umatilla, Hermiston, Stanfield, Echo, Boardman or Irrigon, Oregon CSEPP wants you to have a free a Tone Alert Radio. Oregon radios are tested every Wednesday at noon. If the radio begins beeping every 60 seconds and the yellow TEST light flashes, the radio won't alert you in an emergency and needs to be replaced or have a stronger antenna installed. For a free Tone Alert Radio, or to report beeping, call Oregon CSEPP at (800) 307-7708.
